

HEMIPTERA

Suborder:

STERNORRHYNCHA

Aphids, scales

Subordinal Characteristics:

- (1) sucking mouthparts or none
- (2) gradual metamorphosis
- (3) two pairs of wings, usually membranous, or none

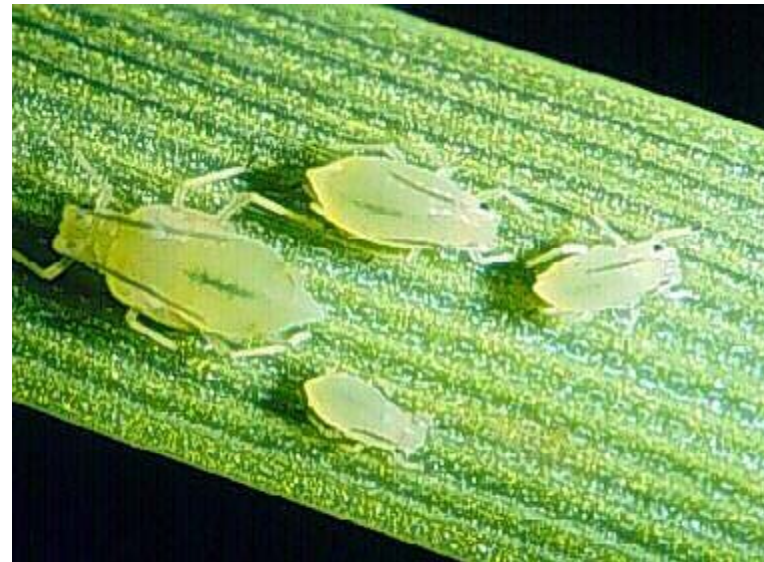

HEMIPTERA

Suborder:

STERNORRHYNCHA

Aphids, scales

- Species common name
 - Greenbug
- Family/Group common name
 - Aphid
- Scientific family name
 - Aphididae
- Food
 - Plant sap

HEMIPTERA

Suborder:

STERNORRHYNCHA

Aphids, scales

- Species common name
 - Spotted alfalfa aphid
- Family/Group common name
 - Aphid
- Scientific family name
 - Aphididae
- Food
 - Plant sap

HEMIPTERA

Suborder:

STERNORRHYNCHA

Aphids, scales

- Species common name
 - Pea aphid
- Family/Group common name
 - Aphid
- Scientific family name
 - Aphididae
- Food
 - Plant sap

HEMIPTERA

Suborder:

STERNORRHYNCHA

Aphids, scales

- Species common name
 - San Jose scale
- Family/Group common name
 - Armored scale
- Scientific family name
 - Diaspididae
- Food
 - Plant sap

HEMIPTERA

Suborder:

STERNORRHYNCHA

Aphids, scales

- Species common name
 - Euonymus scale
- Family/Group common name
 - Armored scale
- Scientific family name
 - Diaspididae
- Food
 - Plant sap

HEMIPTERA

Suborder:

STERNORRHYNCHA

Aphids, scales

- Species common name
 - Brown elm scale
- Family/Group common name
 - Soft scale
- Scientific family name
 - Coccidae
- Food
 - Plant sap
