

Sanborn Entomology Club  
Meeting Minutes  
October 2, 2008

Next Meeting: October 16 @ 5:15 PM

Officers Present: Trisha, Anndrea, Ian, Mike

Club Business:

- Andrine is planning to hold a Halloween open house at the insectary. The insect zoo will be open for viewing, and there will be other various activities both inside and out with the chance to win some cool prizes! Andrine might need some help from the club, or any interested individuals to help set up or work during the open house.
- With the fall weather starting to creep up on us, the club has been considering its options for the fall bonfire. Due to several scheduling conflicts, we are considering having the event a little later than usual, likely Saturday, November 8<sup>th</sup>. While nothing has been decided for sure as of yet, we are thinking about having a cookout and bonfire at the Lake McMurry group campsites/picnic shelter. A big plus for having it at the lake is that it will allow anyone who's interested to camp overnight and enjoy the nice fall weather.

Dates to Remember:

- We are still planning to have a jewelry making workshop at 1PM on October 19 in NRC 216 to get ready for ESA.
- The club is still planning to have a table set up at the Eco OSU Art Festival, October 25<sup>th</sup> at Theta pond.
